

"We Envision"

"We envision a future when everyone with a mental illness will recover, a future when mental illnesses can be prevented or cured, a future when mental illnesses are detected early, and a future when everyone with a mental illness at any stage of life has access to effective treatment and supports - essentials for living, working, learning, and participating fully in the community."

WE NEED YOU!

Join Jefferson Center for Mental Health's Policy Action Network

This is a great way to get involved in your community and promote mental health. Members of the PAN establish and maintain positive relationships with elected officials and other decision makers to promote adequate resources and improve the lives of community members. Jefferson Center provides PAN members with up to date information about pending legislation and issues related to mental health. By working together to be a voice for mental health, we **can** make a real difference!

Yes! I want to be an advocate for mental health!
